

FORME COSTRUTTIVE MOTORE STANDARD

Per le forme costruttive del motore si fa riferimento alla normativa IEC 34-7. Di seguito sono schematizzate le soluzioni più ricorrenti ma si ricorda che sono possibili anche combinazioni di esse (per es. B3/B14 o B3/B5).

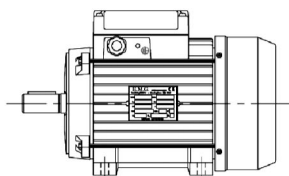

All'atto dell'ordine è bene specificare la configurazione desiderata.

STANDARD MOTOR TYPES OF INSTALLATION

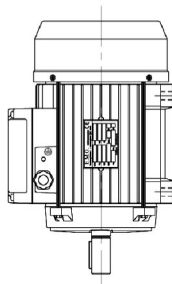

For the mounting type please refer to the standard EN 60034-7. The most used construction shapes are shown below but also combinations of them are possible (e.g. B3/B14 or B3/B5).

Please specify each configuration when ordering.
